

# Prayer Power

by Shirley Squire

For 4 ½ years we traveled, living in our fifth wheel and working for RV parks.

In 2004 we arranged 2 ½ months off as we wanted to have more time to visit family and friends.

Shortly before we were to leave, I discovered I needed another surgery. No problem. I would just use “my” surgeon in Kansas. But, yeah, one of those many butts in life, I discovered “my” surgeon had retired. “Jesus what do I do now?” “Be still and know that I am God.” I did, and as always, God answered me.

I asked the receptionist of the hospital to give me the list of surgeons. She gave me three typed pages! I laid my hands on the pages, sat still, and prayed. As always, God never abandoned me!!

I skimmed my hands over each page individually. Repeating this, I stopped at a name and called the surgeon’s office. I hand-delivered the “film” I had. I was given an appointment for the following week.

However, before I had even left the hospital, the Doctor called me. He said that he wanted to see me now. He would do surgery the following day!

When I stepped into his exam room, there was a picture of Jesus on the wall!!

Give it a try, because Prayer Power works!
