

# Religious Education Pick Up Procedure

Cars will form two lanes (the right lane will be for turning right onto Kingston and the left lane will be for turning left onto Kingston Rd).

A catechist will lead the students in a single file line out the school back door & between the two lanes of cars. Each student will leave the line once he has found his car. A catechist will remain at the front of the cars with a STOP sign. One catechist will follow the last student until each student has found their car. That catechist will wave to the person holding the STOP sign to signal it is ok for cars to move. Once the sign changes from STOP to GO and cars may start their engines and leave the area.
