

St. Katherine Drexel

Jesus In the Eucharist Activity #1

1. You need one picture of Jesus. It can be a sticker, an image printed off the internet, or cut from a magazine, and 3 sheets of construction paper: one yellow, one white, and one for the background paper, which can be any color you like.

2. Print out the template for the 1/2 of a chalice and host that is shown on the right. Make sure your picture of Jesus will fit inside the host! (If you just cut and past the template onto a blank sheet in Microsoft Word you can enlarge or reduce it as you like before printing it.)
3. Fold the yellow paper in half and put the chalice template on the folded edge. Outline and cut it out. When you open it, you will have a complete chalice. Glue it onto your background paper and let your child decorate it with crayons, markers and plastic jewels or sequins. You can also stick tin foil on it to make it shiny!
4. Fold the white paper in half and put the flat side of the host template on the folded edge of the paper. Outline and cut it out. You will now have an almost circular piece of white paper that opens like a door.
5. Glue the above the chalice, making sure the "door" opens the right way. Now open the host and glue your picture of Jesus inside. You child can draw a cross on the outside of the host if you would like so it looks more special.
6. And there you have it! Your picture should show the host above a beautiful chalice. When it's shut, your child can't see Jesus, but open it and, surprise! There is Jesus in the Eucharist just as he is in the real host during mass!
