"Price is Right" Show Raised Funds for Planned Parenthood Abortion Business

The popular game show "The Price Is Right" aired a controversial show May 11 with drag queen RuPaul playing to raise money for the Planned Parenthood abortion chain.

The prime-time special "The Price Is Right at Night" with host Drew Carey aired at 8 p.m. on CBS. It was pre-recorded before the Corvid shutdown.

RuPaul won \$97,000 for Planned Parenthood while other contestants competed for prizes.

New Gerber Baby is a Cute Little Adopted Girl Named Magnolia

Gerber keeps highlighting the precious value of every baby's life through its annual baby photo contest. This year, the baby food company honored an adopted child for the first time in the history of its contest.

Magnolia, of California, "captured the hearts of the judging panel with her joyful expression, playful smile and warm, engaging gaze," the company said.

According to the company, more than 327,000 babies were entered into its contest this year.

Two years ago, the company chose a baby with Down syndrome, Lucas Warren, as the winner.

It's always beautiful to see a company honoring babies from all walks of life and recognizing that, no matter what their background or their abilities, they are valuable human beings who are worth celebrating.

SUICIDE SURGE

Doctors in Northern California are reporting more deaths due to suicide than coronavirus during the pandemic.

"The numbers are unprecedented," said Dr. Michael deBoisblanc of John Muir Medical Center in Walnut Creek, California. DeBoisblanc said he's seen a "year's worth of suicides" in just the last four weeks alone. Kacey Hansen, a trauma center nurse, told the *National Examiner*: "What I have seen recently, I have never seen before. I have never seen so much intentional injury."

Suicide has been an increasingly significant problem across the country as the coronavirus outbreak caused stay-at-home orders that led to unemployment and stress.

Abortion Activists Hack Pro-Life Zoom Event, Bomb It With Gay Porn and Nazi Imagery

Abortion activists disrupted a pro-life organization's virtual graduation ceremony last week by hacking into the video and displaying pornography and Nazi images to the students. Students for Life of America hosted the event May 20 with OANN's Liz Wheeler. Breitbart reports someone hacked into their broadcast and showed graphic gay pornography and Nazi images to more than 100 pro-life students in what is being called a "Zoom bomb."

SFLA President Kristan Hawkins said her organization is filing reports with the FBI and police.

World Health Organization Assembly Includes Reproductive Health in COVID-19 Resolution, U.S. Objects

Health ministers from around the world adopted a resolution on health policies to respond to the COVID-19 pandemic early this week at the World Health Assembly that includes "sexual and reproductive health." The United States objected to the inclusion of the term and rejected the notion of an international right to abortion.

ANTI-LOVE

Phil Harvey, the CEO of Adam & Eve, who made millions selling erotic materials has donated \$9 million to Marie Stopes International, an organization that commits abortion in 37 countries around the world.

Lindsay Fay, a mission team manager for The Culture Project, said this highlights the obvious connection between pornography and abortion. "[In] the pornography industry and the abortion industry, [they promote] ... empowerment for women, but it is actually a false form of empowerment. There really is an enslavement to feeling the pressure to end the pregnancy or end a human life," she said.

Planned Parenthood affiliates improperly applied for, received \$80 million in coronavirus stimulus funds, feds say

Thirty-seven Planned Parenthood affiliates applied for and received a total of \$80 million in loans from the Paycheck Protection Program (PPP).

The Small Business Administration is contacting Planned Parenthood to explain that affiliates of larger organizations with more than 500 employees are not eligible for the Paycheck Protection Program. The Planned Parenthood Federation of America (PFFA) alone has had more than 600 employees. The SBA warned "severe penalties" were possible, beyond mandatory repayment.

Black Americans are 13.4% of the Population, But 36% of Abortions Kill Black Babies

Courage director responds to Austrian book on same-sex Church blessings

The executive director of **Courage International** is pushing back against an Austrian book that seeks to create a blessing for same-sex unions. "To tell our brothers and sisters who are attracted to the same sex that the way to find happiness and fulfillment, in this world and in eternal life, is to pursue a relationship that is contrary to God's plan is a dangerous lie," said Father Philip Bochanski.

Courage International provides pastoral support, prayer support, and fellowship for people with same-sex attraction who want to live chaste lives according to Catholic teaching.

International Assault On Religious Liberty

Dozens of international left-wing organizations recently signed a statement lecturing the U.S. State Department's Commission on Unalienable Rights. Leading the pack are the Center for Reproductive Rights, Human Rights Watch, and the International Women's Health Coalition.

The letter addressed to the Commission on Unalienable Rights says, "we urge the Commission to reject the prioritization of freedom of religion as a cloak to permit violations of the human rights of women, girls, and lesbian, gay, bisexual and transgender (LGBT) people."

The fact is that religious liberty has long been recognized throughout the world as a foundational right. Therefore, it should never be put on the same moral or legal plane with reproductive or sexual rights. To do so is to devalue religious liberty. This, of course, is exactly what these organizations seek to do.

Bishops Respond to England's New 'Opt Out' Organ Donation System

A new law treating all adults in England as potential organ donors unless they opt out "potentially undermines the concept of donation as a gift," the country's bishops have said. A statement by the Bishops' Conference of England and Wales May 20 noted that the Church has consistently encouraged organ donation.

"However, a system of presumed consent risks taking away the right of the individual to exercise this decision," it said.

The National Health Service (NHS), the U.K.'s publicly funded healthcare system, hopes the new law will produce an additional 700 transplants a year by 2023. It added that those who tested positive for COVID-19 or were exposed to the virus would not be considered as organ donors.

St. Augustine Bishop Estevez Calls for an End to Florida Death Penalty

All of Florida's death row inmates live in the Diocese of St. Augustine. Many are Catholic. At least twice a year St. Augustine's Bishop Felipe Estevez goes to visit death row inmates himself.

Bishop Estevez notes that no death row inmate in Florida has been granted clemency since 1983, and with 350 death row inmates, Florida has the largest active death row in the United States.

"We need to put a stop to the death penalty because, as John Paul II said, it is not necessary. We can put all our energy into having the best prison system so that these prisoners who are a danger to society will not do any harm to anybody."
