St. Elizabeth of Hungary

EFT Summary

Electronic Funds Transfer (EFT) has been a big success since it was introduced. Over 170 families currently contribute to St. Elizabeth of Hungary Parish through EFT. It is safe, efficient, and easy. More and more people are using EFT for their bill paying.

Here's how it works. You give permission to transfer money electronically from your bank account to St. Elizabeth's bank account. **You do not need a computer to implement this payment method.** You simply fill out the sign-up document on the other side of this form, sign it, and provide us with a voided check. There is nothing else for you to do. And yes, you can change your contribution amount at any time by contacting the Parish Office.

You can have money transferred from your checking account or savings account. The transfers occur monthly on the 18th of each month. If the 18th falls on the weekend or a holiday, the transfer will occur the next business day.

Many people find this approach to be easier, safer, and more suitable to their budgeting. With EFT there is no need to write checks or make a last-minute trip to an ATM before Mass. In addition, using EFT definitely helps our Parish. Specifically, it:

- Increases the reliability of Parish revenue
- Reduces the work of collecting, counting, depositing, posting and accounting for contributions
- Reduces parish banking transaction expenses
- Results in a higher level of support for the Parish

It is easy, convenient and it really helps St. Elizabeth of Hungary Parish.

Please consider using EFT.
