### Praying the Rosary:

This is a time to reflect in quiet prayer and share a beautiful tradition with your students. Have them lead a decade on their own and then the family joins in. Pray to our Mother Mary as a family and teach them to pray in the home!

### Picture Re-takes on Wednesday, November 18<sup>th</sup>:

All new and absent students will be taking a photo even if parents do not want pictures. We need that photo for our yearbook! **If parents do want a new set of pictures (after viewing the online pictures), call the main office and Mrs. Knaup will put your student's name on the list!**

If math homework makes you nervous, know that you are not alone 😊. Here are a few tips to help ease the pain:

- 1) Ask your child to explain what he/she is supposed to do. It allows them to take the lead.
- 2) Remember that there are many different ways to solve any type of problem. Teachers instruct on a multitude of ways to give your child more "tools" with which to work. You may have a different way to do the problem than the one being taught.
- 3) Homework is meant to reinforce what it being taught in class so if your child has missed school, please make sure they check in with the teacher to get clear instructions.
