- True Cross

STREAM Merchandise...

We have STREAM Synergy window clings and t-shirts for sale. Merchandise is a great way to market and promote your school. There is no minimum order per school. Click on this [LINK](#) for an order form. Please email order forms by 10/30.

STREAM Science Fairs...

Our annual elementary and middle schools STREAM Science Fairs will be held this year. Thanks to Mazie and Corpus Christi for planning and hosting the elementary fair. Thanks to Carolina and St. Thomas More for planning and hosting the middle school fair. We are in the process of finalizing details and will have those out in early November. Pre-registration will be required.

NEW STREAM Synergy Schools...

Congratulations to **Christ the Redeemer, Holy Rosary, and Sacred Heart Crosby** for being the newest STREAM Synergy schools for 2020. We are thrilled to have three (3) new members added to our cohort this year.

What is the STREAM Synergy Spotlight?

Welcome to the Spotlight, our newest academic excellence resource published specifically for our STREAM Synergy schools. We plan 2 issues in this inaugural year of the Spotlight, one in the fall and one in the spring. Principals, please share the Spotlight with your faculty and staff. We want to spread the good news.

Notre Dame Center for STEM Education - Trustey Family STEM Teaching Fellows...

The Trustey Family STEM Teaching Fellows is a professional development program seeking **school teams of STEM teachers in grades 4-8**. The program is cost-free for applying teachers and requires only a nominal investment from schools. Over the course of three summers and two school years, teachers receive the following benefits:

- 100 hours of professional development annually
- Connection to a national community of STEM educators
- Paid travel, lodging, and meals for summer and mid-year institutes
- \$4,500 stipend over the 3-year fellowship

We would love to have a “team” from our Archdiocese participate. If you are interested, click on this [LINK](#) for a flyer from the Notre Dame Center for STEM Education.

FREE HMNS Memberships...

In an effort to share the museum with as many educators as possible, HMNS has donated a Dual level educator membership for every Family membership purchased in September. The Youth Education Team has given the CSO 10 (ten) complimentary memberships for our involvement with HMNS. We are sharing those memberships with our STREAM Synergy principals. The first three (3) go to our NEW schools—**Christ the Redeemer, Holy Rosary, and Sacred Heart, Crosby**. The following schools were chosen randomly—**Assumption, Corpus Christi, Our Lady of Lourdes, Sacred Heart Conroe, St. John Paul II, St. Martha, and St. Mary League City**. Congratulations to everyone! The HMNS will be contacting you.

NCEA STREAM Resources...

The world of STREAM is continually evolving and so are the great resources available for schools and teachers. [NCEA](#) has much to offer including:

- Live and on-demand webinars
- Workshops
- Annual STREAM Symposium
- Articles
- Publications
- and much more...

Do you have something to share for our spring issue of the Spotlight? We would love to highlight a STREAM school, STREAM teacher/team of teachers, projects, and accomplishments. We would also like to share great resources. Send information to rnunez@archgh.org.
