- 1** **Q** **How many people live in the defined study area?**
A Currently, there are 11,969 persons residing in the defined study area. This represents an increase of 1,445 or 13.7% since 2000. During the same period of time, the U.S. as a whole grew by 14.6%. (see page 4)
- 2** **Q** **Is the population in this area projected to grow?**
A Yes, between 2016 and 2021, the population is projected to increase by 6.1% or 730 additional persons. During the same period, the U.S. population is projected to grow by 3.7%. (see page 4)
- 3** **Q** **How much lifestyle diversity is represented?**
A The lifestyle diversity in the area is *somewhat high* with 17 of the 50 U.S. Lifestyles segments represented. The top individual segment is *Suburban Mid-Life Families* representing 20.3% of all households. (see pages 13 and 14)
- 4** **Q** **How do racial or ethnic groups contribute to diversity in this area?**
A Based upon the total number of different groups present, the racial/ethnic diversity in the area is *extremely high*. Among individual groups, *Anglos* represent 19.7% of the population and all other racial/ethnic groups make up a substantial 80.3% which is well above the national average of 39%. The largest of these groups, *Asians*, accounts for 43.7% of the total population. *Asians* are also projected to be the fastest growing group increasing by 12.3% between 2016 and 2021. (see pages 4 and 7)
- 5** **Q** **What are the major generational groups represented?**
A The largest age group in terms of numbers is *Survivors* (age 35 to 55) comprised of 3,552 persons or 29.7% of the total population in the area. *Silents* (age 74 to 91) make up 8.1% of the population which compared to a national average of 6.7% makes them the most over-represented group in the area. (see page 4)
- 6** **Q** **Overall, how traditional are the family structures?**
A The area can be described as *mixed* due to the about average presence of married persons and two-parent families. (see page 6)
- 7** **Q** **How educated are the adults?**
A Based upon the number of years completed and college enrollment, the overall education level in the area is *somewhat low*. While 82.8% of the population aged 25 and over have graduated from high school as compared to the national average of 86.4%, college graduates account for 23.8% of those over 25 in the area versus 29.4% in the U.S. (see page 8)
- 8** **Q** **Which household concerns are unusually high in the area?**
A Concerns which are likely to exceed the national average include: *Neighborhood Gangs, Affordable Housing, Neighborhood Crime and Safety, Social Injustice, Racial/Ethnic Prejudice* and *Time for Recreation/Leisure*. (see page 16)
- 9** **Q** **What is the likely faith receptivity?**
A Overall, the likely faith involvement level and preference for historic Christian religious affiliations is *very low* when compared to national averages. (see page 15)
- 10** **Q** **What is the likely giving potential in the area?**
A Based upon the average household income of \$88,699 per year and the likely contribution behavior in the area, the overall religious giving potential can be described as *very high*. (see page 4 and 17)

Population and Households

Primary U.S. Lifestyles Segments-2016

The population in the study area has increased by 870 persons, or 7.8% since 2010 and is projected to increase by 730 persons, or 6.1% between 2016 and 2021. The number of households has increased by 282, or 7.5% since 2010 and is projected to increase by 244, or 6.0% between 2016 and 2021.

Population By Race/Ethnicity-2016

Population By Race/Ethnicity Trend

Between 2016 and 2021, the White population is projected to decrease by 266 persons and to decrease from 19.7% to 16.4% of the total population. The Black population is projected to increase by 91 persons and to increase from 10.3% to 10.4% of the total. The Hispanic/Latino population is projected to increase by 252 persons and to increase from 22.9% to 23.6% of the total. The Asian/Other population is projected to increase by 652 persons and to increase from 47.2% to 49.6% of the total population.

Households By Income-2016

Population by Age-2016

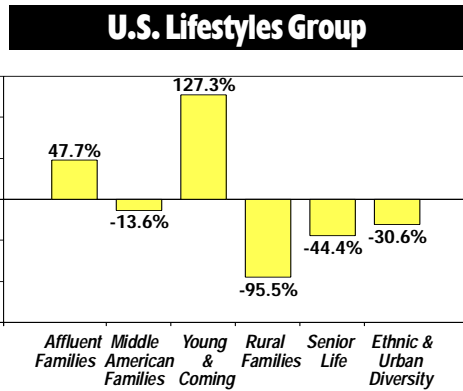

The average household income in the study area is \$88699 a year as compared to the U.S. average of \$77135. The average age in the study area is 41.1 and is projected to increase to 42.3 by 2021. The average age in the U.S. is 38.9 and is projected to increase to 39.8 by 2021.
