

CRISTO REY | DE LA SALLE

EAST BAY HIGH SCHOOL
ST. ELIZABETH CAMPUS

We're Looking for Innovative and Progressive Teachers to Join Us!

Our Mission

Located in the heart of Oakland's historic Fruitvale district at the Saint Elizabeth Campus, Cristo Rey De La Salle East Bay High School (CRDLS) is a diverse, Lasallian Catholic learning community that educates young people of limited economic means to become men and women of faith, purpose, and service. A rigorous and personalized college preparatory curriculum integrated with a corporate work study experience prepares students to succeed in college and in life.

Our Unique Approach

Working at CRDLS is UNLIKE teaching in a traditional high school environment.

We are proponents of personalized learning. CRDLS leverages the Summit Learning platform to aid in the delivery of its educational program. The school is sponsored by the De La Salle Christian Brothers of the Lasallian District of San Francisco New Orleans and is a member of the Cristo Rey network.

We are committed to the principles of restorative and wholeness practices, and we integrate a unique corporate work study program in the educational experience of each student associate. Each student associate is employed five days per month by a corporate partner, local business, or community agency which, in turn, provides socio-political capital and tuition assistance.

CRDLS is seeking teachers to join its Lasallian Catholic learning community for the 2020 - 2021 school year for the following positions:

In addition, all teachers serve as a mentor to a group of approximately twenty students who they will coach, counsel through the college process, and advocate for through their academic career at CRDLS. Mentors meet weekly with their mentees to reflect upon the week, to discuss their academic and personal goals, and to plan for the coming week. Mentors push students to become self-directed learners who can set and achieve goals and seek new challenges.

All teachers plan by deeply understanding student data to determine the individual and group supports needed for students to achieve on a variety of complex projects. This involves planning for the integration of core content knowledge with cognitive skills and habits of success that stretch across content areas and allow student associates to prepare

for the world beyond the classroom. Finally, all teachers do not see themselves as disseminators of knowledge but instead are facilitators and coaches to their students.
