

Incoming 3rd Grade Summer Reading & Math Projects

Dear Incoming 3rd Grade Students,

We will be so excited to see you in 3rd grade when school starts this August!

For your **Summer Reading Project**, please choose a book from “The Magic Tree House” series, written by Mary Pope Osborne. You could also take part in the TCCL summer reading program.

Since it’s so important to keep Math skills fresh in your mind, you could do the following **Summer Math Projects**:

1. Memorize the following addition doubles problems from 1 – 12: **1 + 1 = 2; 2 + 2 = 4; 3 + 3 = 6; 4 + 4 = 8; 5 + 5 = 10; 6 + 6 = 12; 7 + 7 = 14; 8 + 8 = 16; 9 + 9 = 18; 10 + 10 = 20; 11 + 11 = 22; 12 + 12 = 24.** (You will know you have memorized these problems if you’re able to quickly answer them, without counting on your fingers.)

2. Memorize the following addition sums-of-10 problems: **0 + 10 = 10; 1 + 9 = 10; 2 + 8 = 10; 3 + 7 = 10; 4 + 6 = 10; 5 + 5 = 10; 6 + 4 = 10; 7 + 3 = 10; 8 + 2 = 10; 9 + 1 = 10; 10 + 0 = 10.** (You will know you have memorized these problems if you’re able to quickly answer them, without counting on your fingers.)

Love,

Mrs. Joyce

Mrs. McGranahan
