

ARCHANGEL GABRIEL
CATHOLIC SCHOOL

2021 Grades 1- 8 Summer Reading

Summer is a perfect time for students to enjoy reading and to help them maintain their literacy skills. Summer learning loss or setback, often referred to as the “summer slide”, is a significant loss of academic achievement that students may experience during the summer months. It is estimated that students have the potential to lose up to two months of reading achievement if they do not engage in reading activities over the summer. Literacy is the single most significant skill needed to function effectively in school, the workplace and in society and is the foundation for future academic success.

In addition to encouraging your children to read recreationally over the summer, please find attached the Archangel Gabriel School’s official summer reading requirement for your child’s grade level. Students will complete the assignment for the grade level in which they are entering in August 2021. If you have any questions, please consult your child’s teacher. **Please have your child complete the included forms and return to his/her teacher the first week of school of the 2021-2022 school year.**

The Archangel Gabriel School educational team thanks you for your support as our goal is for all of our students to become life-long readers and utilize their literacy skills for long term success.
