

Advent Wreath

Supplies:

Paper plates

Green, pink and purple construction paper

Glue

Toilet paper rolls (optional)

The craft can be done in a variety of ways. If you are going to have the students trace and cut out their hands, it might be better to start this process a week before. You can also use tissue paper squares crumbled up and then glued to look like greenery around the candles. The candles can be made with toilet paper rolls for sturdiness with the paper glued around it, or you can just use the paper. You can also add a paper flame on one candle.
