## Disciplinary Point System

### ***Disciplinary Guidelines:***

Disciplinary Action is designed not only to correct misconduct but also to encourage and motivate students to become responsible citizens of our school community. To that end, teachers and administration will use the prudent judgment on a case by case situation. Behaving appropriately is an essential aspect of learning. Without discipline, a teacher cannot teach effectively and the learner cannot learn. Our disciplinary system is based on the principals of natural and logical consequences which encourages our children to make their own responsible decisions. Students must learn to be accountable for their decisions. The point system below and the consequences will be reset at the end of each trimester.
