

Teens Encounter Christ (TEC) is an intergenerational movement focusing on youth who are engaged in living out their passage from youth to young adulthood. TEC seeks to intervene into the lives of youth within its age range to "make the mystery of Christ, dying and rising, in His Church" present to them. TEC Team members often get just as much out of the weekend as they put into the weekend. Team members are there because they had a great experience and want to give that experience back to others.

Team members are asked to arrive at the facility on Friday evening before the weekend to help set-up and to stay after on Monday evening to help clean-up. You will also receive training at this time and you will have the opportunity to meet other team members, share ideas, pray for the program, check out the hosting facility and build community among your team.

The Diocese of Grand Island Office of Youth and Young Adult Ministry and the Teens Encounter Christ Program reserve the right to use photos and video of all team and participants for marketing and publicity purposes.
