Summer 2020

Dear Families,

There is a Science article for each grade posted on Google Classroom. You are to read the passage. Then you are to type or write the complete answers to the questions that follow. Make sure you have the heading filled in. The completed assignment will be turned in through Google Classroom. The assignment is due on the first day of school.

Incoming 8th grade: There will be 2 articles - one for those entering Living Environment and one for 8th Grade Science. Since the roster for both classes will not be determined until after the summer assignments are posted, you can wait until then to start it, or you can do both articles. The second article would then be counted as extra credit (as long as quality effort and work were put into it).

5th graders that are entering 6th grade, the heading on Google classroom that you will find your assignment on will be “**Incoming 6th graders 2020.**” We already had a meeting on how to join that section in Classroom.

Thank you,
Mrs. Hartel Goodman
Middle School Science Teacher
