Math

Educational Games	
Website	Grade Band & Description
Prodigy	Prodigy is a curriculum-aligned math game that adapts in difficulty to suit a child's learning style and grade level
Brain Pop	Games and videos for students in grades 4+ on a variety of common core aligned topics.
Math Games	Math games and skills practices for grades PreK through 8.
Arcacademics	Free, multi- or single-player educational math games for Grades 1-6. There is an app available for mobile devices; students compete against others, do math drills and receive immediate corrective feedback.
Websites with Lessons and Direct Instruction	
Khan Academy	A national leader in free, tutorial-based personalized learning online. Lessons from grades K - 12 aligned to common core standards.
Zearn	A K - 5 digital math curriculum that guides students through grade-level lessons. Zearn's approach teaches students to understand math in an intuitive and tangible way. The software provides students safe, in-the-moment feedback that precisely addresses areas of misconception.
Eureka	Scripted lesson plans for an adult to complete with a child. * This site will be putting up video lessons daily beginning March 18th.
IXL	Grade-level online lessons for PreK through 12th grade. Students, parents or educators select skills from within domains based on grade-level standards.

Science/Social Studies

Website	Grade Band & Description
National Geographic	Here kids can read articles and watch videos, play games, and learn about animals and countries.
NASA Kids Club	At some point, what's happening here on Earth just isn't enough to keep kids interested. When it comes to outer space, NASA's got you covered with the

	NASA Kids' Club. In the Kids' Club, your future astronauts can take on missions that will teach them first-hand what it's like to be in space.
Ask Dr. Universe	Ask Dr. Universe is a science-education project from Washington State University. Kids can send Dr. Universe any question they may have about history, geography, plants, animals, technology, engineering, math, culture, and more. Dr. Universe also has several videos that explain things like why the ocean is salty and why feet smell. Kids can also explore topics that other students have asked questions about.
Ben's Guide to the US Government	This interactive website, hosted by the U.S. Government Publishing Office, allows your child to see the ins and outs of the U.S. government by taking a series of learning adventures with none other than Benjamin Franklin. It even has a glossary of all the terms that kids need to understand how our government works.
Peep and the Big Wide World (Primary students)	Based on the animated TV series, this site combines a comprehensive science curriculum with distinct visuals, intriguing plotlines, and familiar characters. After each episode, your child can see kids just like them experiment with these science concepts!
Climate Kids	This NASA initiative covers a wide range of topics including weather, climate, atmosphere, water, energy, plants, and animals. It also explains how connected different aspects of the earth's climate are by showing the impact that one has on all the others. In addition to games, activities, and videos, your child can learn more about green careers, too.
BBC History for Kids	Games about ancient, world, and US history that help students learn facts about historical topics.
Mystery Science	Free K-5 digital lessons with optional hands on activities. No log-in required!
PhD Science	Starting Wednesday, March 18, Great Minds will share free, daily recorded lessons in Grades 3-5 of PhD Science®. The lessons will be delivered by their teachers and will be viewable on any device.

Other

Website	Grade Band & Description
Flipgrid	Teachers can create videos and share them with students. Students can reply with a short video of their own. This is a great way to stay connected while learning at home.
Loyal Books	Free Audiobooks for children
