

Quality urgent care & COVID-19 testing when you need it most.

Let's get back to school safely this fall

PM Pediatrics Urgent Care's team of pediatric experts is specially trained in acute care medicine. With a safe and sanitized child-friendly environment, PM Pediatrics provides care your family can trust.

Our clinicians have specialized pediatric experience and expertise.

We treat a broad array of illnesses and injuries including fever, infections, fractures, wounds requiring stitches and more.

Our on-site digital X-rays can be reviewed by a board-certified radiologist and sent easily to other doctors.

Our on-site lab delivers immediate results for many tests including strep, RSV, mono, flu and more.

Open daily with late night hours.

COVID-19 Testing

PM Pediatrics Urgent Care is partnering with schools to offer convenient COVID-19 assessments and testing with pediatric experts for children from preschool to grade 12 and school administration.

PM Pediatrics safely administers PCR, rapid antigen and serum antibody (blood) tests to both children and adults. Our pediatric experts will help determine if students are cleared to return to class.
