

# Feedback from our School Parents...

Dozens of our parents were asked to write down four things that they feel make Our Lady of Victory School unique. While the answers included things like the school's monthly mass attendance and Thankful Thursday assemblies, teaching cursive and extensive after-school club offerings, the most common answers referenced the excellent faith-based education offered and the "sense of family" found at OLV School. These answers demonstrate that the goals Our Lady of Victory School sets each school year are achieved. It is a true blessing to educate, and to be educated, at OLV School. Please continue reading for more detailed testimonials.

*"Something wonderful will happen to you today." Every day at OLV School opens with that simple reminder from the principal – that if you open your mind and your heart you will see God's influence in your life. For the last eleven years, our children have attended OLV because the education they receive at OLV goes beyond the core curriculum. Catholic values are emphasized in every class and in every classroom, reinforcing the self-esteem, respect and compassion for others that we teach at home.*

*Catholic schools are known for their academic excellence, and OLV is no exception. Our oldest children are continuing their education at the Catholic high school of their choosing, and on scholarships, because of the exceptional foundation they developed at OLV. But the reason we made, and continue to make, the sacrifice to send our children to OLV is the knowledge that they are being exposed to the Catholic faith daily and to a value system that will forever be part of their lives. "Something wonderful" has truly happened to our children each day as they walked through the doors of OLV and were challenged to not only do their best academically, but proudly to live out their lives and their Catholic faith in an increasingly challenging world."*

*"There are very few places in the world that provide very vivid, positive memories from one's youth – so much so that you want your children to have those same amazing experiences. Our Lady of Victory School is that place for our family. As an alumna and a parent of a current and future student, I could not be happier to be part of this growing community. To be in a place that does not teach to test, that values creativity and kindness, and that provides an incredible education, is immeasurable. My experiences with OLV have been nothing but spectacular."*

*"Making a commitment to Catholic school education was a "no brainer" for my husband and me. Our three children have benefited not only from the rigorous education and high standards set by the school, but from the values instilled upon them each and every day. For some, these values are just an afterthought in life... kindness, generosity, empathy, service to others. At OLV, they are a priority and create the foundation that is Catholic education. We are proud to be members of the OLV school community and feel that our children will always carry the lessons they learned in this special place in their hearts and minds."*
