

June 9, 2020

Dear Parents,

Your kindergartner had a very busy year learning new skills, especially in the areas of math and ELA. Mastery of these skills is important in order to develop a solid educational foundation. The 1st grade program will add on to these kindergarten skills, so any time spent learning or reinforcing these concepts will be very beneficial for your child. Each year builds upon the previous year's skills.

On the 1st grade teacher websites, you will find the following packets embedded: Getting Ready for 1st grade math packet along with an ELA packet.

Please spend time going over the work in the packets with your child this summer. Also, reading with your child every day will only help them educationally and emotionally. Anything they read to you or with you is great!

Please complete the packets and return to us on the first day of school. We hope you have a wonderful summer!

Sincerely,  
The St. Anne's School  
1st Grade Team
