

Dear Parents and Guardians,

I would like to take this opportunity to introduce myself. My name is Mrs. Marion Shelley and I am so excited to be your child's 5th grade teacher. During the year, I will be teaching your children Science.

This is my 6th year teaching at St. Anne's and 23rd year overall. Before my time at St. Anne's, I have also had experience teaching in NYC public schools. I earned my Bachelor's Degree in Elementary Education from Iona College. I have two masters, Science and Literacy. I am a permanently certified NYS teacher. Outside of teaching I enjoy running, yoga, and cycling. I have been married for 18 years and have two children, Scarlett and Craig. We live in Oyster Bay.

Throughout the year, it is important to have a strong parent-teacher relationship. If at any time you have any questions or concerns please contact me at mshelley@stannescschoool.org. Also, please check my classpage on the school's website for any important updates. I update my page as much as possible with reminders, news, and other information that might be helpful. Google Classroom will be the tool that will be utilized in the classroom for all assignments including homework and assessments. It is important for you to check that as well.

I am thrilled to be starting this year's journey with your children! I look forward to watching them learn, grow, and have a fantastic time in 5th grade Science!

Sincerely,
Mrs. Marion Shelley
