

Platinum Basketball **COVID-19 Update - March 18th, 2020**

Dear Platinum Basketball family,

We appreciate your trust, concern, and patience as we navigate the situation surrounding COVID-19. As an organization, Platinum Basketball, remains committed to providing an outstanding experience in a safe, healthy, and fun environment. As circumstances evolve, we will do our best to provide timely and concise communication based on the most current guidance from our local, state and federal health authorities.

Due to the March 11th, 2020 announcement by the World Health Organization that the outbreak of COVID-19 has been declared a pandemic, updated announcements by the Centers for Disease Control (CDC), and information from medical professionals including state and federal health officials, the following actions are being taken in an attempt to minimize health and safety risks of our players.

As a precaution, we are postponing all Platinum Basketball scheduled events for the **next two weeks**. This includes our Platinum Club tryouts and Opening Camps, as well as Texas Platinum Elite girls training camp. We also have been in communication with the facilities that we have contracted and they have assured us that a continual deep cleaning of their facilities is of the utmost priority. In addition, we are in the planning stages, if alternate plans are needed, to delay our practice and tournament start dates. Moving forward we will continue to monitor and evaluate the situation. We will be in communication if there are any alterations moving forward due to facility closings or any other unforeseen circumstances. We anticipate moving forward with our scheduled events by **April 4th**.

During this time of concern, we will remain calm and make the adjustment necessary to fulfill our obligation to each and every Platinum Basketball member. As we all take a deep breath, I would encourage you to take care of yourself, your family, those around you as we continue to adhere to the preventative measures as recommended by public health officials by visiting the [CDC website](https://www.cdc.gov) for more information.

I understand that this is a fluid and rapidly progressing situation that impacts us all. Thank you for your patience as we work together to deliver a successful experience for all involved.

Warm Regards,

Jay Bruce
