

Fourth Grade March Newsletter

Dear Parents,

This month we will be celebrating Saint Patrick and Saint Joseph. They show us what it means to be true Christians and a testament that God has a plan for each of us. We need to trust in Jesus to guide us to make the right decisions in life.

Religion: During the weeks of Lent we will be doing activities that will help the students understand that Lent is a time to give, to fast, and to pray. Lent is a time to prepare for the celebration of Easter.

English Language Arts: We will continue with our fourth unit and concentrate on adjectives, adverbs, prefixes and suffixes. We will develop our writing using the writing process and learn to find details to support answers to questions.

Math: Students will be working on factors and multiples as well as multi-step problems using multiplication and division. Please continue with multiplication flash cards as well as division flash cards daily. Students will also learn to model, compare, and order fractions.

Social Studies: We will be learning about our nation's economy and global economy. Students will understand the importance of importing and exporting products.

Science: Students will be learning about how high tech devices use ways to send and receive information. We will focus on radio waves and Internet satellites.

As always, thank you for all your support in helping your children, be the best they can be this school year!

**Sincerely,
Mrs. Scotto-Lavino and Mrs. Zahn**
