

First Grade Newsletter

April 2021

Spring has arrived! It's hard to believe that the year has flown by so quickly. We are busy preparing for second grade in these last months of school.

In ELA, we will continue our study of Unit 5. Our phonics lessons will focus on diphthongs and new digraphs. We will continue to review short and long vowel sounds and patterns. In these last months of school we will be working diligently to strengthen student reading fluency and writing skills. It is very important that your child reads each night and completes assigned reading and writing.

In math, we will complete Chapter 12 and move onto geometry. Continue to practice math facts to 20 in order to build fluency. As always, please continue to practice addition and subtraction at home.

In science and social studies, we will continue to focus on life cycles and the living environment. We will learn about ways to take care of the Earth and its natural resources.

In religion, we will learn about what happened after Easter. Jesus died and rose again in order for us to receive new life. Thank you for your continued cooperation and support. We are proud of the progress that all of our students have made this year during this unusual academic experience. Thank you for your continuous cooperation!

Sincerely,
Mrs. Filiberto and Mrs. Vinciguerra
