

## **Fifth Grade April Newsletter**

### **Religion**

During religion class this month, we will focus on the joy of our Risen Lord. Easter is a celebration of peace. We will look in depth at John's Gospel where we find Jesus appearing to his disciples. We also learn of the institution of our first pope, Peter. We are reminded that we are called to spread the Good News of Jesus through speech and action. Also throughout the Easter season, we are reminded that God's lasting love is with us...always.

### **English Language Arts**

In English Language Arts classes, students will work on the comparing and contrasting of overall text structure (chronology, problem-solution, cause/effect, comparisons) of events, ideas, and concepts in two or more texts. As well, we will continue our study of grammar, vocabulary, and writing skills. Please continue to check your child's Google Classroom and the homework site. Thank you.

### **Math**

As April begins, students will return to working with decimals, this time with all operations. Throughout the month, students will also work on measurement in math and science.

### **Science**

In science class, we will continue our exploration of Earth Science. Lab activities related to the water cycle, the rock cycle, and conserving Earth's resources will support and enhance learning.

### **Social Studies**

In social studies we will begin chapter 4: Life in the Colonies We will read about the contributions of significant individuals and what it took to build a new society.

**ALLELUIA, ALLELUIA, ALLELUIA**

**REJOICE, FOR OUR SAVIOR IS RISEN!**
