

Kindergarten

April News 2021

Religion

Spring is here! We are learning about new life. We will continue to learn about Christ's journey to the cross. We will celebrate Easter on April 4th. Easter recess will be April 1st-12th.

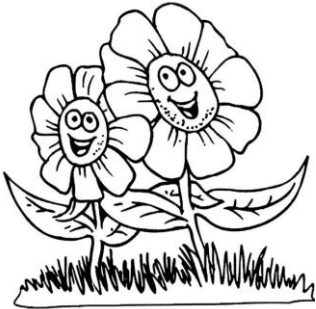

ELA

In ELA, the children are continuing to learn and review their high frequency words. Please practice these words with your child. It is important that you read the decodable stories that we send home weekly. It reinforces the skills we have learned in class. Your child has learned many other words they should be reading. These words include word families, color words and number words. Please review these words and read daily with your child.

Math

We are moving along nicely in math. We have begun addition and subtraction and will be working on addition and subtraction facts up to ten. We are learning to count by two, fives, and tens up to 100.

Science Social Studies

The kindergarten students will continue to explore the world around them in their science and social studies classes. We will learn about the gift of new life through planting and animal life cycles. We will discuss the careers people pick and how they help us in our world.

Please check the St. Mary School Website and calendar for important events. Sincerely,
Miss Bilello and Mrs. Hoffmann
