Strong Catholic Family- Strong Catholic Youth Sound Bites:

- A. To help parents take ownership as the primary leader of faith within their families.
- B. To understand the critical role that parents uniquely possess in how that faith is experienced and lived out.
- C. Parishes/ Schools model for parents that sacraments initiate an individual into a *life of faith*, not just a moment of faith.

Paradigm Shift

From: A parish catechetical program-centered model

To: A model in which the domestic church is at the center

From: Parishes/ Schools that provide sacramental moments

To: Parishes/ Schools that support families in sacramental living
