September 14, 2012

Dear Jean,

We graciously accept and thank you for your generous gift of \$11,000 for the Bendel Memorial Multi-Purpose Building in Moshi, Tanzania. It is an honor to have this gift in remembrance of your awesome parents, Bernard and Valerie Daenzer.

I treasured the times I spent with your Dad, who was truly the Renaissance man, that with your Mom's assistance did so many things to help better our society, the Catholic Church, and help less advantaged people in Haiti and Africa. Your Dad believed that education was the best way to improve a person's future. Your Dads incredible life story was proof that philosophy works.

I know the Apostolic Life Community of Priests' Superior General, Joseph Israel, and former Superior General, Amadeus Macha, loved their meetings with your Father and your faithful brother John at your Ocean Reef home discussing opportunities to help improve future generations of children's lives. At one such meeting your Dad and brother provided the funding to reserve the land so that a school could be built instead of an Islamic extremist's education center. Now that school is teaching boys and girls of all religions including Moslem girls how to be better prepared in the future to hold jobs and build better lives for themselves.

Also, your Dad would be pleased to know that his Foundation funds received double matching funds to help complete this building. I will be providing you a picture of the completed building when finished. Your major gift will make this building possible.

Many thanks to you, Brother Peter and nephew Christopher for keeping alive the generous spirit of Bernard and Valerie Daenzer through this gift.

Sincerely yours,

John L. Becker, Jr. - President
