Our Mission Statement

Grounded in Catholic Tradition, Queen of Angels Regional Catholic School provides a cutting-edge and high quality education that instills in students a love of learning and commitment to their faith, thus preparing them with the tools to navigate the future creatively while considering the well-being of their neighbor as Jesus taught.

Belief Statements

We believe that:

- Catholic Identity in all aspects encompasses who we are and all that we do.
- Everyone, as a child of God, should be treated with respect and dignity.
- Parents, the primary educators of their children, affirm the value of Catholic education through their partnership with the school and the faithful practice of their faith.
- An enriched curriculum that includes instruction in religion, technology, Spanish, art, music, and physical education addresses all aspects of a child's development.
- Each child has God given talents that need to be encouraged and developed in a safe, disciplined, nurturing environment.
- Children need to gain an understanding of their responsibility to God, their family, their country and the world community.
- Because of its relevance in our world today, technology provides an essential tool to enhance education and these tools are integrated throughout instruction.
- The religious sisters are an integral part of this IHM school which calls each person to prayer, love and service, courtesy and hospitality. In this school, Jesus is the center. Mary is the model.
