

Guidelines for Athletes

Participation on a competitive sports team is a privilege that requires students not only to be athletically capable, but also worthy representatives of the school. All students must meet school standards in order to join or remain a member of a sports team.

Athletic Participation Guidelines

1. Every student must submit a health form that indicates a physician's approval for the student to participate in physical education and interscholastic sports. (health form link)
2. Students are to exhibit Christian conduct at all times.
3. The use of any drug or alcohol is forbidden.
4. A student's academic work always is to reflect his/her best effort. If this is not the case, suspension from the sport will result. The final decision will be made by the principal.
 - a. A student who fails to complete homework assignments (this means one zero paper) is automatically benched for the next game.
 - b. A student who receives a progress report indicating work far below the student's capability is automatically suspended for one week or until the classroom teacher reports that work quality has improved.
5. A student's conduct grades must always be at least satisfactory. Two detentions means automatic suspension for the remainder of the season.
6. A student who is absent from school may not compete, attend the game, or participate in practice

Uniforms

Uniforms are provided by the school. Athletes are responsible for keeping them neat and clean during the season and returning them in satisfactory condition to the coaching staff no later than one week following the last game of the season.
