Providing Additional Protection

Did you know that most injuries — nearly 60% — happen off the job? This means they are not covered by Workers’ Compensation, which may leave you without adequate income protection. What’s more, health insurance covers only your medical bills; it offers no help with any of life’s everyday expenses. Finally, Social Security disability benefits cover “severe” disabilities only — those expected to last a year or more.

To help protect your family’s financial security, you need UnumProvident’s Long Term Disability Income Protection insurance.

Why Protect Your Income in the Event of a Long Term Disability?

Most of us take our health — and our ability to work — for granted. But the fact is, three out of 10 workers age 25 to 65 can expect to be disabled 90 days or more. For many, this means loss of income, family security and independence. It can happen to anyone, at any age. Consider the facts:

- Thirty-three million Americans are classified as severely disabled.²
- A disabling injury occurs every five seconds.³
- Most of us are living from paycheck to paycheck.⁴

If a disability prevents you from earning an income, how will you pay your bills, your mortgage, your car payments and other expenses? And what about the added costs that may accompany a disability, such as expenses for adaptive equipment? There’s a lot depending on your paycheck — that’s why Long Term Disability Income Protection insurance from UnumProvident is so important.
