The traditional Lenten practice of praying the Stations of the Cross is a great way to not only teach the story of the suffering and death of Jesus, but to also enter into and participate in the suffering of Jesus. Participants can truly encounter Christ with this prayer experience, especially using a presentation of the Stations that is age-appropriate, reflective, and capable of touching individuals through multiple senses. This Lent, consider sharing virtual Stations of the Cross with images, music, and moving meditations that allow viewers to, in a small way, experience what Jesus experienced, journey with Him on the road to Calvary, and understand what the sufferings of Jesus mean for us today. Explore virtual Stations of the Cross for all age levels in this ERC listing.
