

How to Fold Your Tiny Book

Step 1. Fold your book in half making the short sides meet. Be sure to crease the fold well.

Step 2. Fold your book in half again to make a long strip. Again, press the creases.

Step 3. Unfold the book, then fold it in half the other direction, making the long sides meet. Crease well.

Step 4. Fold the book in half again with the short sides meeting, as in step 1, then use scissors to cut the book on the line—be sure to cut from the fold line and only half-way.

Step 5. Open the book up and work the pages into the correct order. I often find it helpful to open it to pages 4 & 5 and crease it before closing it and smoothing out the folds.

Optional Step 6. You can glue in between pages 3 & 4 and in between pages 7 & 8 if you wish.
