

SO THEY GAVE YOU AN

---

IPAD . . .

What do you do with it? Don't worry...we got you covered.

CARING FOR YOUR IPAD

---

**IBEHAVIORS**

## THE CASE

- ▶ You should ALWAYS leave your case on.
- ▶ Do not peel, pick, or scratch at the case.
- ▶ Any damage to your case while in your care is your responsibility and you may be asked to purchase a new one.
- ▶ If there is something wrong with your case, please notify Mrs. De Petro.

## OTHER EXTERNAL IPAD CARE

- ▶ Only use a clean, soft cloth to clean the screen
- ▶ iPads should not be exposed to extreme temps (i.e. left in a car)
- ▶ Cords and cables must be inserted carefully into the iPad.
- ▶ iPads must remain free of any writing, drawing, stickers etc.
- ▶ iPads must never be left in an unlocked or unsupervised area
- ▶ Do not lean on or put pressure on the screen

## KEEP IT CHARGED

- ▶ Students need to charge their iPad each evening.
- ▶ A fully-charged iPad should have enough battery life to complete a normal school day.

## GAMES, MUSIC, ETC.

- ▶ Your device is school property and should be treated like a textbook.
- ▶ You may not listen to music, watch videos, take photos, or play games on your iPad unless directed to do so by your teacher.
- ▶ Data storage is limited.

# HOME INTERNET ACCESS

- ▶ Students are allowed to add wireless networks to their iPad. This will assist them with iPad use at home.
- ▶ Printing at home will require a wireless (iOS 5) compatible printer and proper settings.

## DAMAGE TO YOUR IPAD

- ▶ Students will be held responsible for ALL damage to their iPads including, but not limited to: broken screens, broken case, cracked plastic pieces, inoperability, etc.
- ▶ Should the cost of repair exceed the cost of purchasing a new device, the student will pay the replacement value.
- ▶ Insurance covers wear and tear and accidents - not damage done through misuse.
- ▶ Lost items such as cables, will be charged the actual replacement cost.

NAVIGATING YOUR IPAD

---

# GESTURES

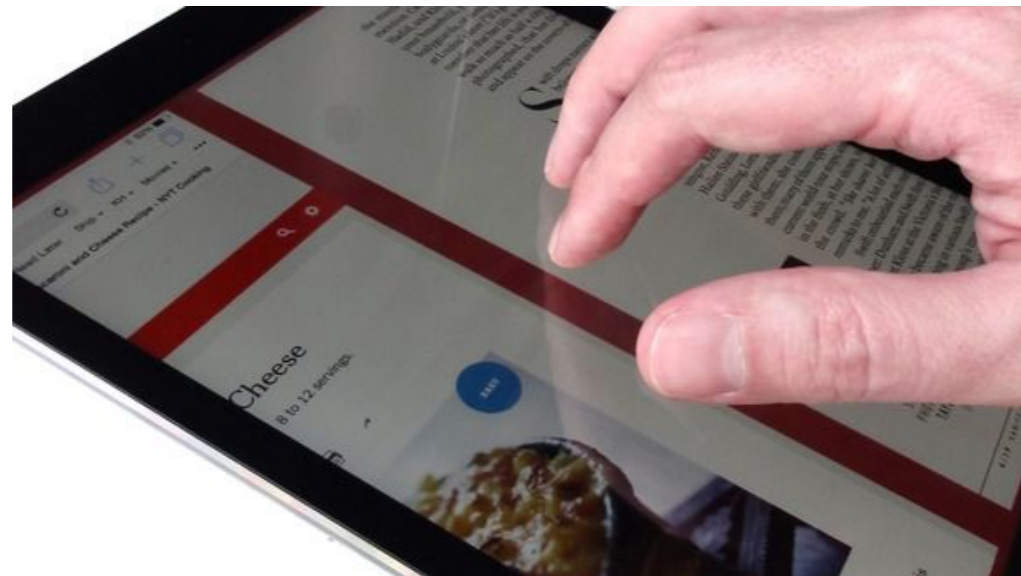

# 4 FINGER SWIPE UP

- ▶ Do this instead of hitting the home screen button
- ▶ When you do so, you'll go to the multitasking view.
- ▶ Tap a card to switch apps, or swipe down again with four fingers to return to the app you were just using.
- ▶ Make sure you have the iPad's Multitasking Gestures setting enabled. Launch Settings, then toggle the switch.

# 4 FINGER SWIPE LEFT OR RIGHT

- ▶ If you want to switch apps without dealing with multitasking screen, try this: Using four or five fingers, swipe from left to right or right to left.
- ▶ When you do, you'll start cycling through all your open apps, one after another—no need to tap the Home button.

# PINCH WITH FIVE FINGERS

- ▶ Here's yet another inventive way for iPad users to avoid touching the Home key: just "pinch" with all five fingers.
- ▶ When you do, the app you're using will shrink and disappear, revealing the home screen.

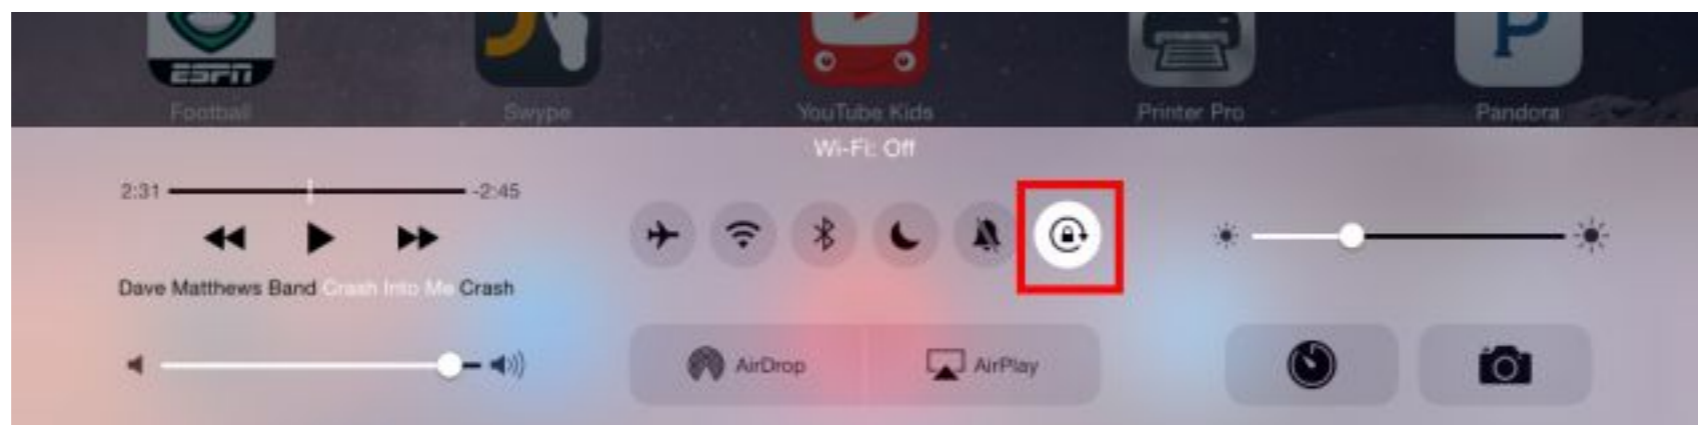

# SPOTLIGHT SEARCH - ONE FINGER SWIPE DOWN FROM TOP

- ▶ While you are on the home screen -- which is the screen that displays your apps -- you can swipe down on the screen to reveal the Spotlight Search. Remember, just tap anywhere on the screen and move your finger down.
- ▶ Spotlight Search is a great way to search for just about anything on your iPad. You can search for apps, contacts or even search the web

# SWIPE FROM BOTTOM EDGE FOR THE CONTROL PANEL

- ▶ The control panel will let you adjust the volume or turn on features like Bluetooth or AirDrop. You can even adjust the brightness of your screen.
- ▶ You can get to the Control Panel by swiping with one finger down from the very top right edge of the screen.
