

# PlusPortals Basics for SPN Families

- PlusPortals is the grade reporting system in use by SPN.
- You can access PlusPortals by clicking the “Academics” link on the school’s website or by visiting <https://www.plusportals.com/SaintPhilipNeri>
- You will receive an automated activation email from the school with your login credentials. Your username is the primary email address you have on file in the school’s database.
- Should you forget your password, click “Can’t Access Your Account?” on the PlusPortals login screen.
- For any other PlusPortals access issues, contact Evie Vollenweider (evollenweider@stphilipneri.org)
- When you log into PlusPortals, you will be shown progress information for each of your students. The grades listed next each subject area is your student’s current average in each course.
- If you have more than one child at SPN, there will be a section shown for each of your students.
- Grades will be most up-to-date at 5:00 PM each Wednesday.
- Weekly updates of grades through PlusPortals will replace quarterly progress reports.
