Hot Lunch Program 2017-2018!

Great news! Beginning in August 2017 we have a new hot lunch program on Tuesdays, Wednesdays and Thursdays. We will be offering some healthy lunches with a kid-friendly twist. More details will be forthcoming in our summer newsletter.

We will still be offering pizza lunches on Mondays and Fridays.

FREE SPORT PHYSICALS

If your son or daughter plans to participate in any middle school or high school sports next school year, they are required to get a sports physical before they can practice.

Glenwood Medical Associates (GMA) will offer a FREE SPORTS PHYSICAL day on Wednesday, May 10th. Middle school will begin at 6pm with high school to follow around 6:30pm.

Welcome to Agrabah and the Academy Award-winning adventure of the street rat that became a prince!

St. Stephen Catholic School Students Score Above the National Averages on ACRE Tests!

A Shout Out of Congratulations to the fifth and eighth graders and all their religion teachers! Once again, our students scored higher than the national averages across the board on the American Catholic Religious Education (ACRE) Standardized Test. This examination is given to Catholic school students across the country; it tests students' knowledge of Catholic teachings and morality. What a beautiful testament to the amazing disciples of Christ our students are growing up to be in our parish and school community. Thank you parents for choosing to partner with our school in forming your children in our faith and love of our Lord. We are so grateful to have such a supportive parish. Amen!

OFFERTORY DURING CHILDREN'S MASS—We are so excited to announce that we have raised the following for our monthly tithing during Children's Mass:

All money raised will be contributed to the Capital Campaign. We will continue to have offertory during Children's mass for the remainder of the year, so keep bringing in your tithing and help us build a new school!!!

We want to thank each of you for your contributions to the Children's Offertory. With your help and support we will be able to build our new school!

AYE....MATEY.....STRANDED ON A DESERT ISLAND.....While the 7th and 8th grade are gone learning about the foundation of our country, 6th grade was left in the hands of our "Mad Scientist" - Mrs. Hatch. The class was stranded on a desert island after a terrible ship wreck; the groups were tasked with several missions in order to survive. They had to create a shelter to find refuge from the rough desert nights, build a bridge in order to obtain food from the grove of coconut trees on the other side of the river, find materials to send a message in a bottle in hopes someone will save them, and build a raft to venture out into the wild seas to try to travel home.

ARRRGH!!!!!! Pirates!!!!!! Yes, Pirates, did I forget to mention the groups had to fend off pirates with their highly creative coconut catapults. The week has been quit a blast filled with wonderful STEM (Science, Technology, Engineering, Mathematics) projects and group building.

The 4th and 5th grade class traveled to The John McConnell Science Center and The Museum of the West in Grand Jct. The students made "goo" and some students blew them up to make internal organs, as the 5th graders are studying the human body. All the students spent hours building models, testing science theories, conducting science experiments, and holding live reptiles. Great fun!
