

To our Friends in Public & Private Schools in Illinois

School Faculty & Staff:

The Illinois Attorney General's Office, Internet Crimes Against Children Task Force will be conducting virtual webinars for parents again this school year. This is a great way for your schools to provide free educational opportunities for parents without having to do anything but share the links!

Earlier this year IL Attorney General, Kwame Raoul, held a press conference to inform citizens in Illinois of the increase in child sexual exploitation reports. It is so important that we reach as many parents, educators, and caregivers as possible to offer data, recommendations, and resources.

Partner with us.

We'll be hosting webinars on various Digital Safety topics over the course of the school year (additional times/topics may be added based on attendance). You will receive the invite flyer with zoom links via email. It is our hope that you will kindly forward to parent contact lists or advertise on school websites, parent networks, newsletters, etc. There's no need to sign up for anything or fill out any forms. Just a few clicks is all it takes to share with your school and parent community!

Digital Safety presentations can also be requested for your students.

To request presentations please email karilyn.orr@ilag.gov
