- ✚ We have made plans for Summer School in the event that we are able to open and provide that academic support and care for our students. We are awaiting guidance from the Diocese. Please watch Remind for any updates.

We are developing detailed plans for our reopening on campus for the new school year. We are currently finalizing our calendar which will be available upon completion. Our probable first day will be August 24, 2020. We are using the CDC guidelines to plan for enhanced cleaning and hygiene, limiting of mixing of groups, developing social distancing measures, limiting sharing of materials and monitoring health.

Thank you to those who have submitted the Intent to Return form. We are happy that you are continuing to be part of this wonderful community. We will have most of the registration paperwork on our website to make it easier for our families to complete, and it will be available soon. Please note the registration fees will come out of FACTS Management on July 1st.

If you know co-workers, family member, friends or neighbors who are looking for a solid education in a caring Catholic environment, please tell them about St. Adelaide Academy. We are hoping to increase enrollment so that we can continue all the programs we have to support our students and add more opportunities to broaden our curriculum.

We ask for continued blessings of health and safety for you and your families. I appreciate your patience and support during this unprecedented time. All the extra efforts from our parents, staff and students were worthwhile to help our students learn and grow in their faith - St. Adelaide Mustangs are Catholic stewards, scholars and leaders!

Blessings,

Mrs. Barbara Malouf, Principal
