

ST. ADELAIDE ACADEMY

Developing Catholic Stewards, Scholars and Leaders

February 18, 2021

Dear St. Adelaide families,

I am excited to announce that our school will be reopening for on-campus instruction for our kindergarten through 5th grade classes. Our kindergarten will be welcomed back on Monday, February 22nd. Our 1st and 2nd grade classes will be added in on Wednesday, February 24th and then our 3rd through 5th grade classes will be added in on Monday, March 1st. This gradual return will aid us in getting students acclimated to the new procedures to keep everyone safe. A survey will be sent out asking about whether your child will be returning on campus or continuing with distance learning. Please fill out the survey by tomorrow afternoon, February 19, so that we can best prepare.

Students who are returning need to have school supplies. The lists can be found on our website: www.stadelaideacademy.org. If you aren't able to get everything for the first day, please just do your best to have the basic supplies. Each class would appreciate extra sanitizing wipes. All students need to bring their own snack and lunch as hot lunch will not be offered. Parents will not be able to drop off lunches. Extra water for the classrooms would also be appreciated. We ask that students be in uniform, however we understand that this might be a challenge at this time. Please have students wear something as close to the school uniform as possible until you can order uniforms.

New class schedules are being established, so those who are continuing with distance learning will receive a new schedule. There will be some adjustments to teachers who teach subjects other than their homeroom class. Essentially all subjects in kindergarten through 5th grade will be taught by their homeroom teacher.

We will have a heightened cleaning protocol to ensure the health and safety of our students and staff. For details, please read our Covid Safety Plan on our website.

When you arrive on campus, please follow the map that will be sent out. You will drive to the south parking lot and enter through the gate closest to the buildings. Students will go through a health screening and temperature check while parents remain in their cars. Parents will exit through the gate closest to the swings. Preschool parents should park by the Mary statue and walk to the Preschool room to sign your child in and out. Please be reminded that no parents or visitors are allowed on campus at this time. If you need to speak with the teacher, please message them through Remind. All office business is limited. We will not be offering Morning or Extended Care at this time. Our school hours will be from 8:00am to 2:45pm. Students can be dropped off at 7:30am and must be picked up by 3pm. There will be no onsite tutoring at this time.

If you know co-workers, family member, friends or neighbors who are looking for a solid education in a caring Catholic environment, please tell them about St. Adelaide Academy. We are hoping to increase enrollment so that we can continue all the programs we have to support our students and add more opportunities to broaden our curriculum.

We ask for continued blessings of health and safety for you and your families. I appreciate your patience and support during this unprecedented time. All the extra efforts from our parents, staff and students are worthwhile to help our students learn and grow in their faith - St. Adelaide Mustangs are Catholic stewards, scholars, and leaders!

Blessings,

Mrs. Barbara Malouf, Principal
