## Psychiatric Staff Job Description

- Assess and screen patients by conducting psychiatric evaluations, including interviews, medical histories, physical exams, observations, and psychological testing
- Analyze data and results of assessments to diagnose patients
- Prescribe and administer medications according to diagnosis
- Monitor patients to determine efficacy and potential side effects of medications
- Develop a treatment plan, measure progress against the plan, and make adjustments as needed
- Provide crisis intervention as needed
- Complete all necessary clinical documentation in an accurate and timely manner
- Collaborate with a broader team of counselor, social workers, and director to assess and adjust treatment plans
- Coordinate and communicate with case managers and other stakeholders about treatment and care
