

OCTOBER NEWSLETTER 2017

Greetings from Miryante Home and School!

The children and staff from both school and home send you greetings. We are humbled to have your assistance and we greatly appreciate your love and kindness that you share with us every day. This has really been a progressive year for the Organization with a lot of good things taking place here. We are happy to have a home that can provide basic needs to our children and also a home that everyone looks at in the community.

A report about our children

We have got two candidates sitting for senior four final exams, nine sitting for primary seven leaving exams and four sitting for UBTEB (Uganda businesses and Technical Examination Board. Their mocks were promising and we are praying hard that they perform well and get promoted to other levels. Several people have prayed for them and wished them success during their exams and one of them was Phiona an employee of Aptech Africa who came to visit the kids with Laura. They also came along with other friends who donated clothes and sweets to the kids. This was accompanied a dance where one of Laura's friends hired a DJ to come play music.

Farm

Our cattle project is growing big. We are excited to inform you that currently five of our cows gave birth and we are now milking five cows that are giving milk to kids and we are expecting more to give birth.

THANK YOU
