SUMMER MATHEMATIC ACTIVITIES FOR
STUDENTS ENTERING THE FIRST GRADE

Dear Parents,

Students entering the first grade should be practicing their mathematical skills over the summer months. Each student will be logging onto *IXL* to continue and improve their skills. A different topic should be worked on each week (at least a total of 12 topics) and at least 30 minutes per week.

Once logged into *IXL*, click on “recommendations” and complete any topic of your choosing. You may also choose the “Math” tab and work on your choice of Kindergarten math skills.

Instructions for logging in:

[URL: www.ixl.com/signin/notredameint](http://www.ixl.com/signin/notredameint)

Username: First initial and last name (ex: wsmith)

Password: Please contact teacher or office for password.

Clicking on the earphone icon will allow the directions to be read aloud.

Please print out your Score Chart (found in Analytics, Scores tab, then printer icon next to the title) to be handed in on the first day of school.

***Please note:** New students to the Notre Dame family will need to be assigned their username and password through the office.
