

FUTURE SPX FACILITY IMPROVEMENT CAMPAIGN PARISHIONER SURVEY

- 1. In considering the possible facility renovation and expansion plans, please rank the various elements of the design listed below from 1 to 4 (1 high) according to their importance and value to our current and future ministry:**

___ Reconfigured Entranceway, Vesting Area and Handicap Accessible Bathrooms, providing also for better flow, greater light, and accommodating large crowds at Christmas and Easter Masses.

___ Construction of expanded space for the SLAM Ministry to meet the demand of serving young families and creating two age groups to further enhance the experience. This will also allow for converting the current SLAM area into space for babysitting that can serve infants and toddlers. Child bathrooms would add convenience.

___ Building new fellowship space near the front of church, putting Café Pius more in the natural flow after Mass to foster new and deeper friendships, and creating a nice space to hold receptions following funerals, other ministry group gatherings and small to medium size parish social functions.

___ Constructing a new multi-purpose room to accommodate the growing demand for ministry and meeting space in the parish. This would create additional possibilities for school use as well and would include additional multi-stall bathrooms.

- 2. Are there other capital priorities that should be addressed by the parish in the near or longer term future?**

- 3. Please indicate your confidence level that our parish can raise \$3 million over 3 to 5 years:**

Highly confident Confident Not Confident Unsure

- 4. If the parish is unable to proceed with the full renovation and expansion, do you support a phased approach?**

Yes No Unsure

- 5. Would you consider participating as a volunteer in the campaign? (no direct soliciting)**

Yes No Unsure

- 6. Would you consider making a financial gift or pledge to the campaign?**

Yes No Unsure
