

Making a Cross

1. Supplies needed: flower wire and twine from the Holy Week Kit and 2 sticks from your yard.

2. Cross your flower wire and twist twice.

3. Cross your sticks. The shorter piece should be on top.

4. Knot your twine around the middle of the shorter (top) stick leave 1 – 2 inches (you'll use this later)

5. Wrap your twine around your two sticks, bounding them together until you have about an inch left. Tie the two ends tightly together.

6. Take your flower wire and wrap the straight pieces to the longer piece (just above the twine). Wrap one in one direction and one in the other. The loop becomes your hanger!

7. After venerating the cross (if you use this) you can hang it on it's own or with your Palm Sunday greenery.
