

Dear Parents,

The Governor has extended the closure of schools until April 28.

Remember that we are taking this closure day by day . This week, the teachers are working off of previously taught content.

In the coming weeks, they will shift thinking in order to plan, deliver, and assess new content. This will take time, collaboration, and consistent reflection and revision. Although the location and modes of instruction have shifted, we are following the Common Core State Standards and framework for teaching.

ATTENDANCE

Please know that we will utilize attendance data collected during this time to assess Distance Learning practices and future use.

This is important so please make sure the children communicate with their teacher on a daily basis.

I am in daily communication with the Superintendent, and I will stay in daily communication with the St. Francis community.

If you need further updates on the Coronavirus the Department of Catholic Schools has a tab on their website.

Make it a great day!

God bless,
Ms. Gonzalez
Principal
