## Legacy of Life Foundation

### RESPECT LIFE

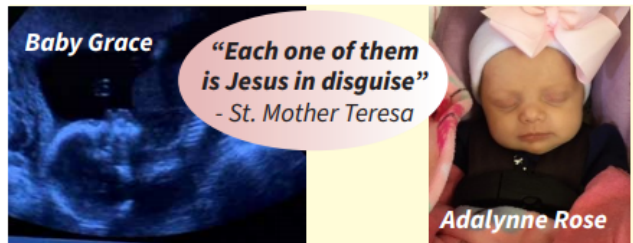

Kinsley is a 16 year old girl who came to our center in the midst of the coronavirus pandemic, only to find that she is 21 weeks pregnant and is being pressured by her father to have an abortion. After some intense counseling and an ultrasound we found that Kinsley wants to keep her baby girl and name her Grace! Kinsley needs financial help, ongoing counseling and support because her father has threatened to kick her out of the house if she keeps baby Grace! This family is one reason why the Legacy of Life Foundation needs your help.

The Legacy of Life Foundation is there to support Grace, but we need your help. We are in an URGENT situation because parishes have cancelled fundraising efforts, including Baby Bottle Drives. Will you help us show Kinsley and other women in crisis that they are loved and so is their baby! Will you help these women say "yes" to being the mother they are called to be?

Because of COVID-19 even more women are coming to our doors confused, alone, and afraid to choose life during these uncertain times. A gift of just \$30 provides an entire day of basic supplies that a mom really needs to take care of her baby. But a gift of \$90 will help these mothers-to-be meet their babies on an ultrasound image. The ultrasound can lead to a life changing, life saving decision when a young mother sees the child developing inside her for the first time.

The Legacy of Life Foundation funds two crisis pregnancy centers, one in Bucks County and one in Philadelphia serving 500+ families struggling to provide simple baby supplies for their children in both Pennsylvania and New Jersey. Both centers provide free services such as pregnancy testing, counseling, ultrasounds, advocacy, and financial help. But our support does not stop there! We mentor and guide the women through our parenting program for at least three years after their babies are born transforming their lives.
