

Let's keep Santa Cruz Catholic School Safe!

Before leaving for school, please check for any of the following symptoms or situations that your family or your child may have.

- *Have I recently begun experiencing any of the COVID-19 related symptoms in a way that is not normal for me?*
- *Have I had close contact with an individual who is test-confirmed in the past 14 days?*
- *Do I have a household member that has been tested and is waiting for results?*
- *Have I traveled to a restricted area that required quarantine for return within the last 14 days?*

If your child doesn't have any symptoms, please proceed to school. Your child will have their temperatures checked, use hand sanitizer and wear a face mask (neck gaiter masks will no longer be permitted) before entering the school building.
