

Prayer Cards A Family Tradition

In our busy lives, many of us have little time for prayer. We would like to teach our children to pray, but our lives are filled with so many things we forget. We would like to offer something that has worked for many families - a prayer card that sits on the kitchen table.

Set the prayer card on the kitchen table, where everyone can see it. You might include a written prayer along with your prayer before meals, and then select some intention to pray for at that meal. Some families find it reminds them to pray, helps them to remember those who need our prayers or helps them remember to pray for each other at special times.
