INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Lafayette Diocesan Foundation, Inc.:

We have audited the accompanying financial statements of the Lafayette Diocesan Foundation, Inc. (the Foundation), which comprise the statements of financial position as of December 31, 2019 and 2018, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2019 and 2018, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

LAFAYETTE DIOCESAN FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

1. NATURE OF ACTIVITIES

The Lafayette Diocesan Foundation, Inc. (the Foundation) was incorporated as a not-for-profit organization under the laws of the State of Indiana. The Foundation was organized exclusively for religious, charitable, educational and scientific purposes. The Foundation's main sources of revenue are from contributions and investment market returns.

The mission of the Foundation is to encourage and facilitate the growth and development of the Catholic Church in the Diocese of Lafayette-in-Indiana by:

- Promoting and assisting in securing new endowment funds.
- Providing information to prospects contemplating charitable gifts.
- Serving as advisors for the management of endowment funds to maximize returns with prudent investment practices.
- Encouraging responsible stewardship through regular communications with the Pastoral Office for Stewardship and Development, and
- Marketing.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING AND USE OF ESTIMATES

The financial statements of the Foundation have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of support and expenses during the reporting period. Actual results could vary from the estimates that were used.

CASH AND CASH EQUIVALENTS

The Foundation considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. There were no cash equivalents at December 31, 2019 and 2018. The Foundation maintains cash balances at commercial banks. Accounts at the banks are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At December 31, 2018, the Foundation maintained cash in excess of the FDIC coverage limits by approximately \$80,000.

INVESTMENTS AND INVESTMENT RETURN

Investments are carried at fair value for financial reporting purposes. Contributed investments are recorded at the fair value of each investment on the date it is received. Changes in fair value of investments are reflected in the statement of activities in the period in which such changes occur. Realized gains or losses upon the sale of investments are based on the cost of specifically identified securities. Interest and dividend income is recorded when earned.

Investment return is recorded as an increase or decrease in net assets without donor restrictions unless its use is restricted by donors to a specified purpose or future period.

LAFAYETTE DIOCESAN FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

REMAINDER INTEREST IN REAL PROPERTY

In 2001, the Foundation received a contribution of a 50% interest in two separate condominiums. In late 2016, one of the properties was vacated by the owner, and in April 2017 that property was sold. The remaining property was sold in 2018 for a price greater than the recorded value. The proceeds were considered a contribution with donor restrictions.

GRANTS PAYABLE

The Foundation holds funds for various Diocesan entities for the purpose of investment and return. The spending rate for these endowment funds is no more than 6% of average total investable assets on a rolling 3-year basis. The allocable earnings are reported as grants payable and are due within one year.

CHARITABLE GIFT ANNUITIES

The Foundation has established a gift annuity program whereby donors may contribute assets to the Foundation in exchange for the right to receive a predetermined annual return during their lifetime or they may assign that right to a designated beneficiary. A portion of the original transfer amount is considered to be a charitable contribution for income tax purposes. The difference between the amount provided for the gift annuity and the present value of the liability for future payments, determined on an actuarial basis, is recognized as a contribution with donor restrictions at the date of the gift. There were no charitable gift annuity donations in 2019. There was \$35,067 contributed for charitable gift annuity purposes during 2018.

The calculation of the present value of the future benefits to be distributed to the beneficiaries is performed using discount rates ranging from 1.4% to 6.0% and the applicable mortality table. Payments are made quarterly, semi-annually or annually. The annuity liability is revalued annually based upon actuarially computed present values. The resulting actuarial gain (loss) is recorded as net assets with donor restrictions class in the statement of activities.

Also, as part of the Foundation's gift annuity program, the donor is given the right to name an outside third party (an organization other than the Foundation) as the final beneficiary. When the Foundation is not named as the final beneficiary, the difference between the amount provided for the gift annuity and the present value of the liability for future payments, determined on an actuarial basis, is recorded as a residual payable.

At December 31, 2019 and 2018, \$189,696 and \$195,844, respectively, is recorded in the statement of financial position at fair value as the annual payment obligations of gift annuities payable. The final amount of the gift annuities that are expected to be paid out to organizations other than the Foundation upon the death of the annuitant at December 31, 2019 and 2018, is \$181,898 and \$121,559, respectively, and is recorded in the statement of financial position at fair value as the residual payable of gift annuities payable.

The fair value of the investments held for the future payment of the annuity liabilities was \$475,551 and \$385,078 at December 31, 2019 and 2018, respectively, and is included in investments in the statement of financial position.

CHARITABLE REMAINDER TRUSTS

The Foundation, serving as the trustee, administers two charitable remainder trusts. Both were created during 2014. The trusts provide for the payment of distributions to the grantor or other designated beneficiaries over the trust's term (designated by the beneficiary's lifetime). At the end of the trusts' terms, the remaining assets are available for the Foundation's use.

LAFAYETTE DIOCESAN FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

CHARITABLE REMAINDER TRUSTS, CONTINUED

The portion of the charitable remainder trust attributable to the present value of future benefits to be received by the Foundation is reported in the statement of activities as contributions with donor restrictions in the period the trust is established.

In one of the trusts, the donor also named outside third parties (organizations other than the Foundation) as additional final beneficiaries for 50% of the residual trust amount. The difference between the assets provided for the trust and the present value of the liability for future payments, determined on an actuarial basis, multiplied by the third party beneficiaries' 50% interest, is recorded as a residual payable.

Assets held in trust total \$943,826 and \$768,505 at December 31, 2019 and 2018, respectively, and are included in investments in the statement of financial position. On an annual basis, the Foundation revalues the liability for distributions to the designated beneficiaries based on actuarial assumptions. The present value of the estimated future payments to beneficiaries at December 31, 2019 and 2018 amounts to \$546,461 and \$457,209, respectively, and is recorded in the statement of financial position as the annual payment obligations of charitable remainder trusts payable. The final amount of the charitable remainder trusts that is expected to be paid out to organizations other than the Foundation upon the death of the beneficiaries at December 31, 2019 and 2018 is \$54,172 and \$41,800, respectively, and is recorded on the statement of financial position as the residual payable of charitable remainder trusts. The fair value of the estimated future payments is calculated using a discount rate of 2.2% and the applicable mortality tables.

NET ASSETS

The Organization maintain the following classifications of net assets:

Without donor restrictions

These are resources available to support operations. The only limits on the use of this category of net assets are the broad limits resulting from the nature of the Foundation, the environment in which it operates, the purposes specified in its corporate documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations. The Foundation maintains two funds in the net assets without donor restrictions class, as follows:

Undesignated - Funds used for general operations

Designated - Funds that have been designated for use as directed by the Bishop or Board of Directors. See Note 5.

LAFAYETTE DIOCESAN FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

NET ASSETS

With donor restrictions

These are resources that are restricted by the donor for use for a particular purpose or in a particular future period. The Foundation's unspent contributions are classified in this class if the donor limited their use, as is the unspent appreciation of its donor restricted endowment fund. See Note 5.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the financial statements by reclassifying the net assets with donor restrictions to net assets without donor restrictions. Net assets restricted for acquisition of buildings or equipment (or less commonly, the contribution of those assets directly) are reported as contributions with donor restrictions until the specified asset is placed in service by the Foundation, unless the donor provides more specific directions about the period of its use.

CONTRIBUTIONS

Contributions are recognized as support in the period promised.

Support that is not restricted by the donor is reported as an increase in net assets without donor restrictions. All donor-restricted support is reported as an increase in net assets with donor restrictions.

DONATED SERVICES

Contributions of services are recognized as revenue at their estimated fair value when the services received create or enhance nonfinancial assets or require specialized skills possessed by the individuals providing the service and the service would typically need to be purchased if not donated.

The Foundation's accounting and general management functions are performed by the Central Administration of the Roman Catholic Diocese of Lafayette-in-Indiana, Inc. (Administration) and the value of the in-kind services was \$64,697 and \$73,441 in 2019 and 2018, respectively.

EXPENSE ALLOCATION

Expenses have been classified based on the actual direct expenditures as well as cost allocation based on estimates of time and usage by the Foundation's programs. Expenses are allocated between grants and general and administrative. The grant programmatic expenses were 90.1% and 87.6% of the total expenses for 2019 and 2018, respectively. The Foundation had the following expense allocations for the years ended December 31:

	<u>2019</u>

INCOME TAXES

The Foundation is organized as a not-for-profit corporation and is exempt from income tax under Section 501(c)(3) of the U.S. Internal Revenue Code and similar state law and has been classified as an organization that is not a private foundation under Section 509(a) of the Internal Revenue Code.

As a religious organization, the Foundation is not required to file annual Federal or state information returns.

SUBSEQUENT EVENTS

Subsequent events have been evaluated through June 17, 2020, which is the date the financial statements were available to be issued. See Note 9.

NEW ACCOUNTING PRONOUNCEMENT

The Foundation has adopted FASB Accounting Standards Update (ASU) 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, as of January 1, 2019. The ASU provided clarified guidance to assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal) transactions subject to other guidance and (2) determining whether a contribution is conditional. The Foundation applied the update on a modified prospective basis to agreements that were either not completed as of the effective date or entered as of the effective date. The application of the update had no impact on net assets as of January 1, 2019.

The Foundation has adopted ASU 2014-09, *Revenue from Contracts with Customers* (Topic 606), as of and for the year ended December 31, 2019. The ASU and all subsequently issued clarifying ASU's replaced most existing revenue recognition guidance in U.S. GAAP. The ASU also required expanded disclosures related to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The update provides companies with a single revenue recognition model for recognizing revenue with customers; specifically requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The provisions of Topic 606 were adopted for the year ended December 31, 2019 utilizing the modified retrospective method. There was no cumulative effect adjustment recorded to the opening balance of net assets as of January 1, 2019 and there was no change in how the Foundation currently recognizes and records revenue. The Foundation does not expect the adoption of the new revenue standard to have a significant impact to the change in net assets on an ongoing basis.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

3. AVAILABLE RESOURCES AND LIQUIDITY

The Foundation strives to maintain sufficient operating cash to cover annual grant, gift annuity, and remainder trust obligations. Due to the irregular nature of cash flow as a result of fundraising and the investment market, cash reserves can vary significantly throughout the year.

The following table reflects the Foundation's financial assets as of December 31, 2019 and 2018, reduced by amounts that are not available to meet general expenditures within one year of the statement of financial position date because of donor restrictions or internal board designations. Amounts not available include a board-designated endowment fund that is intended to fund annual grant activities to various Diocesan entities. In the event the need arises to utilize the board-designated funds for liquidity purposes, the reserves could be drawn upon through the action of the Board of Directors.

Net assets without donor restrictions or designations represent an operating reserve of approximately 26.8 months and 29.8 months as of December 31, 2019 and 2018, respectively.

5. NET ASSETS

DESIGNATED FOR ENDOWMENT

Included in net assets without donor restrictions are six funds which have been designated at the request of the Bishop. Each fund was established with an initial balance of \$10,000. The investment return from each fund is designated for a specific purpose.

The portion of the funds that will be utilized annually for the purposes for which the fund was established is up to 5% of the beginning of the year balance, determined by the market value on a rolling 36 month average. The total of the six funds is \$96,148 at December 31, 2019 and 2018.

	<u>\$ 680,454</u>	<u>\$ 572,474</u>

6. ENDOWMENT FUNDS

The Foundation's endowment consists of board designated and donor restricted funds established to support a variety of charitable purposes. As required by accounting principles generally accepted in the United States of America, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

APPLICATION OF UPMIFA

Management has interpreted the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") as requiring the preservation of the fair value of the original gift as of the gift date of the donor restricted endowment funds absent explicit donor stipulations to the contrary. As a result of the interpretation, the Foundation classifies as net assets held in perpetuity (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulation to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulations are added to the fund. At the present time, the Foundation does not have any endowments held in perpetuity.

The Foundation does have a number of funds with donor restrictions that are restricted for particular purposes and that have been designated by the Board of Directors to function as endowments. These are classified as donor restricted endowment funds.

6. ENDOWMENT FUNDS, CONTINUED

APPLICATION OF UPMIFA, CONTINUED

In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor restricted endowment funds:

- (1) The duration and preservation of the donor restricted endowment funds
- (2) The purposes of the Foundation and the donor restricted endowment funds
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Foundation
- (7) The investment policies of the Foundation

RETURN OBJECTIVES AND RISK PARAMETERS

The Foundation has adopted investment and spending policies for assets held for endowment that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the fair value of the endowment assets. Assets held for endowment funds include those assets of donor restricted funds designated to function as endowment (term endowment funds), as well as funds without donor restrictions designated to function as endowment (board designated endowment funds). Under this policy, as approved by the Board of Directors, the endowed investments are invested in a manner that is intended to produce a total return which protects the purchasing power of the endowed investments and which allows a spending rate of up to 6.0% of the market value on a rolling 36 month average. The Foundation evaluates its investments by comparing actual investment performance to various applicable benchmarks. The Foundation expects its endowment investments to meet or exceed these benchmarks over time. Actual returns in any given year may vary from these benchmarks.

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity fixed income and investments to achieve its long-term return objectives within prudent risk constraints.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO SPENDING POLICY

The Foundation has a policy for its donor restricted endowment funds of appropriating for distribution each year up to 5.0% of the market value on a rolling 36 month average and up to 1% for administrative expenses. In establishing this policy, the Foundation considered the long-term expected return on its assets held for endowment funds. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment funds to grow.

This is consistent with the Foundation's objective to maintain the fair value of the endowment fund assets as well as to provide additional real growth through new gifts and investment return.

7. FAIR VALUE MEASUREMENTS

Accounting Standards for Fair Value Measurement define fair value as the price that would be received for an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. Those standards also establish a three-level fair value hierarchy for disclosure that prioritizes valuations based on whether the significant inputs used to estimate fair value are observable, giving highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to valuations primarily based on unobservable inputs (level 3 measurements). Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- *Common stocks:* Valued at the closing price reported on the active market on which the individual securities are traded.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018

7. FAIR VALUE MEASUREMENTS, CONTINUED

- *Mutual funds:* Valued at the daily closing prices as reported by the fund. Mutual funds held by the Foundation are open-end mutual funds registered with the Securities and Exchange Commission.

These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Foundation are deemed to be actively traded.

- *Common Trust Funds:* Valued at the NAV reported by the fund.
- *Remainder interest in real property:* Valued at the present value of the estimated fair value based on most recent appraisals of the properties.
- *Gift annuities payable:* Valued at the present value of the future benefits expected to be distributed to beneficiaries using applicable mortality tables and discount rates commensurate with the expected terms of the agreements.
- *Charitable remainder trusts payable:* Valued at the present value of the future benefits expected to be distributed to beneficiaries using applicable mortality tables and discount rates commensurate with the expected terms of the agreements.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Pursuant to Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share*, investments in common trust funds, if any, are valued at their respective net asset value and are not classified within the fair value hierarchy.

8. RISKS AND UNCERTAINTIES

The Foundation's investments (Note 4) are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with these securities and the level of uncertainty related to changes in the value, it is at least reasonably possible that changes in the various risk factors will occur in the near term that could materially affect the amounts reported in the accompanying financial statements.

9. SUBSEQUENT EVENT

In recent days, the COVID-19 pandemic has resulted in a state-wide stay at home order. The extent of the impact of COVID-19 on the Foundation's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on donors, and the stock market, all of which are uncertain and cannot be predicted. The Foundation is anticipating a decline in revenue. In addition, the Foundation's investments have experienced approximately 6% decrease since December 31, 2019. The impact of the COVID-19 pandemic on the financial stability of the Foundation is unknown as of the date of the issuance of these financial statements.
