**Child Protection and Creating Safe Environments—February is Teen Dating Violence Awareness Month:** Teen dating violence is a serious problem in the United States. One in three high school students experience either physical or sexual violence, or both, that is perpetrated by someone they are dating or going out with. One in 10 high school students has been purposefully hit, slapped or physically hurt by a boyfriend or girlfriend. Teen dating violence can be physical, emotional, or sexual. Teen dating violence can be prevented through empowering teens to lead healthy lives and establish healthy relationships. Healthy relationships consist of trust, honesty, respect, equality and compromise. Visit <https://www.eriecd.org/childprotection/> to see what the diocese is doing to help maintain safe environments for children and youth.
