

October 29, 2020

Governor Burgum announced today that Ramsey County is moving to Orange. This is the High Risk level, which means significant transmission threat. Our Return to School Plan states that we will move to Distance Learning.

Our COVID Task Force gathered and with the support of Father Wilhelm have decided this does not represent our school. We are tracking our numbers and as of now our numbers do not warrant a move in our plan. We will continue to monitor this closely and make adjustments as needed.

Families, students, and staff, I have to commend you for your diligence in supporting the efforts that have been put in place to keep our case numbers down. Mask wearing in school, washing hands/using hand sanitizer, and staying home when sick is helping to keep our school in person at this time.

Again, know that there is always the option to have your child/ren move to distance learning.

ASAP (After School Activity Program) will continue.
